

FastFund

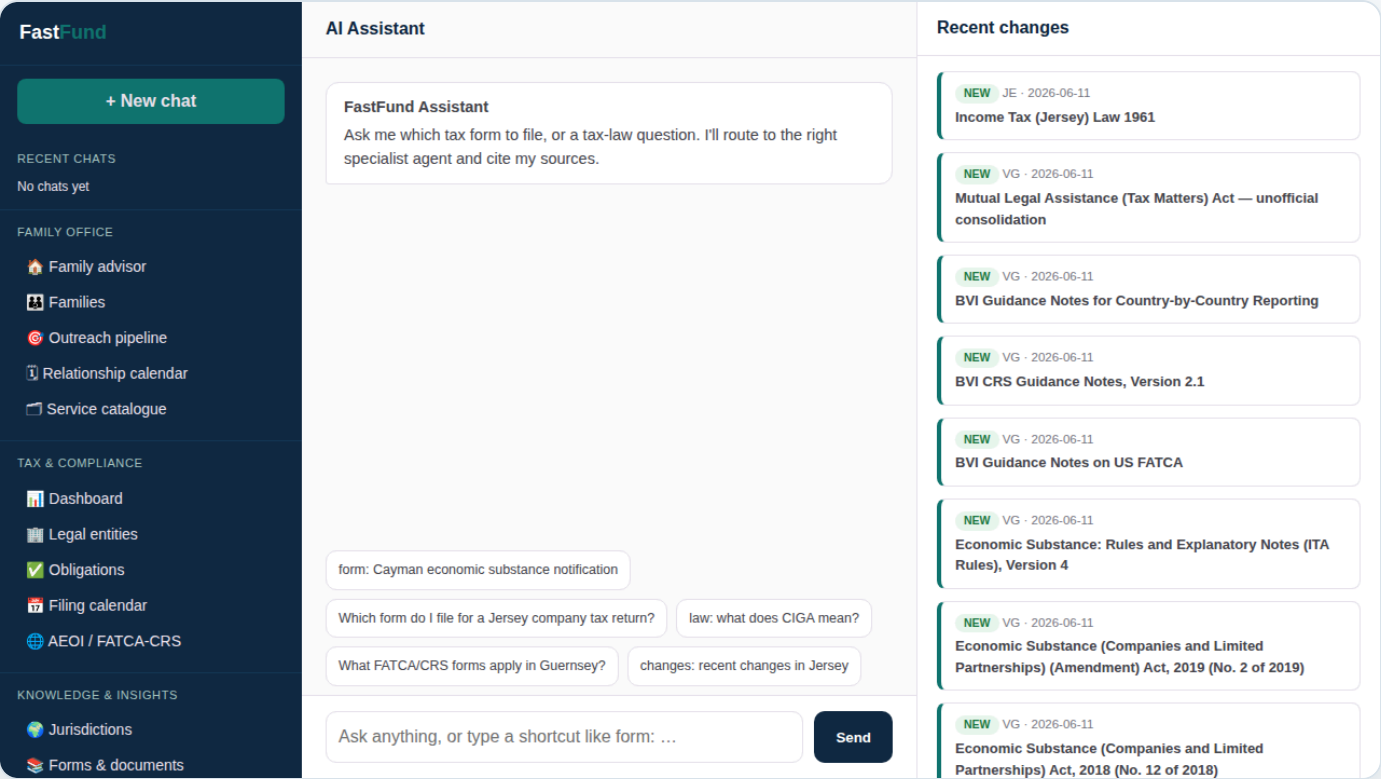

- Family-office outreach and multijurisdiction tax filing intelligence
- One open-source product, one relationship-to-filing data model
- User Guide

One connected operating journey

- Onboard a family office and capture principals, portfolio context and service needs.
- Develop explainable outreach opportunities, proposals and relationship actions.
- Link every fund, trust, company, SPV and holding vehicle to its owning family.
- Determine jurisdiction-specific obligations, deadlines and filing readiness.
- Prepare, review, file and verify while monitoring changes in source law.

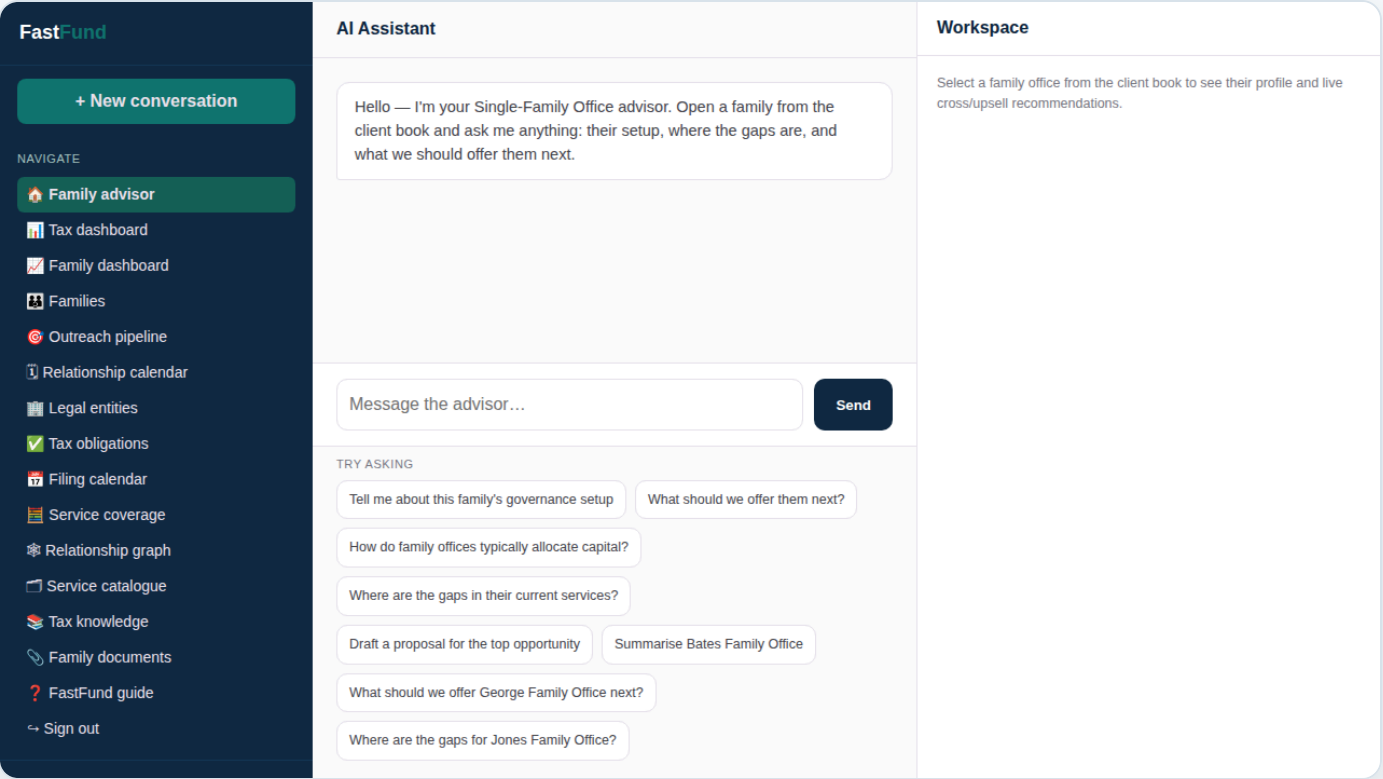

FastFund assistant

- A shared assistant routes questions to tax-law, form, change and data specialists.
- The rationalised sidebar groups work into Family Office, Tax & Compliance, and Knowledge & Insights.
- Answers remain grounded in official source material and linked operational data.

Family-office advisor

- Ask about a family's governance, service gaps, portfolio or next best action.
- Rules and the cross-sell graph produce traceable recommendations.
- The profile and live recommendations stay visible beside the conversation.

Families and outreach book

- Manage leads, onboarding relationships and established family-office clients.
- Review AUM, domicile, generations, family size and services already held.
- Open any family directly in the advisor or its complete relationship profile.

Family profile and ownership

- Portfolio allocation, holdings, transactions, members and relationship history in one view.
- Outreach recommendations and scheduled actions share the same family context.
- Linked legal entities connect relationship work directly to tax filings.

Outreach pipeline

- Move recommendations through suggested, presented, accepted and booked stages.
- Filter cross-sell and upsell opportunities by service category.
- Generate proposals and schedule consultations or follow-ups.

Legal entities

- Funds, trusts, companies, GPs, SPVs and holding vehicles share one portfolio.
- Each entity can be linked to its owning family office.
- Jurisdictions, activities and financial year-end drive deterministic filing obligations.

chat with your data

Ask about your entities, obligations, deadlines, forms or recent changes — I use the same agents as the Assistant.

What does Aurora Global Fund owe this year?

Which entities are domiciled in the Cayman Islands?

List entities with a December year-end

Which entity has the most open obligations?

Ask the database...

Send

Filing obligations

- Track every filing from determination through preparation, filing and confirmation.
- Statuses and expert verification survive repeat determination runs.
- Filter by jurisdiction, category, urgency, entity and completion state.

Multijurisdiction filing calendar

- Resolve form rules into real deadlines using the entity's financial year-end.
- Urgency indicators surface overdue, due-soon and upcoming work.
- Calendar and register views provide operational and portfolio-level perspectives.

Knowledge, provenance and regulatory change

- Official forms, legislation, guidance, gazettes and treaties are captured by jurisdiction.
- Immutable versions and change records preserve the regulatory audit trail.
- Citations and provenance edges connect answers and forms back to source law.
- SQLite supports zero-infrastructure use; Neo4j adds native graph traversal.

Human-controlled automation

- FastFund assists with research, determination, preparation and outreach.
- Users review recommendations, validate form readiness and confirm filing status.
- Synthetic demo data is used for family-office examples; official tax sources retain provenance.
