

# SFO Hub

## Agentic Architecture

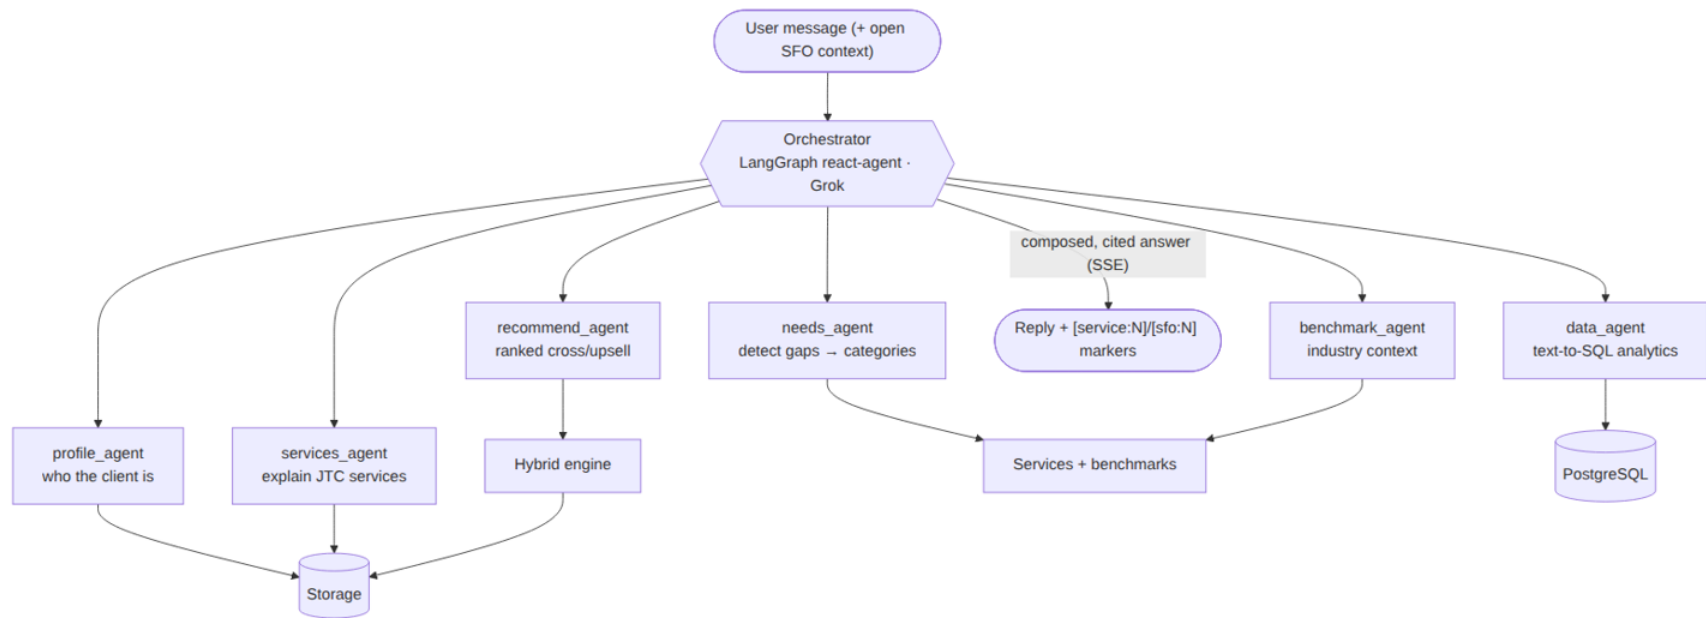

AI advisor for cross-selling & upselling to single family offices

FastHTML · LangGraph orchestrator · 6 specialist agents · hybrid engine · text-to-SQL

# System overview

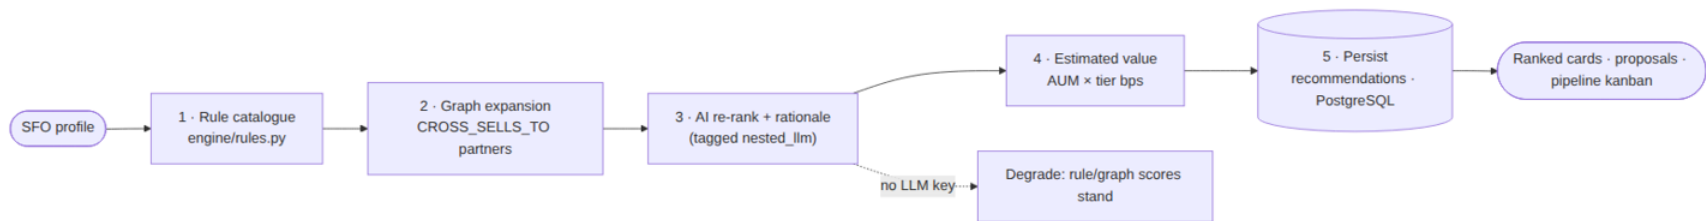

# Agent orchestration

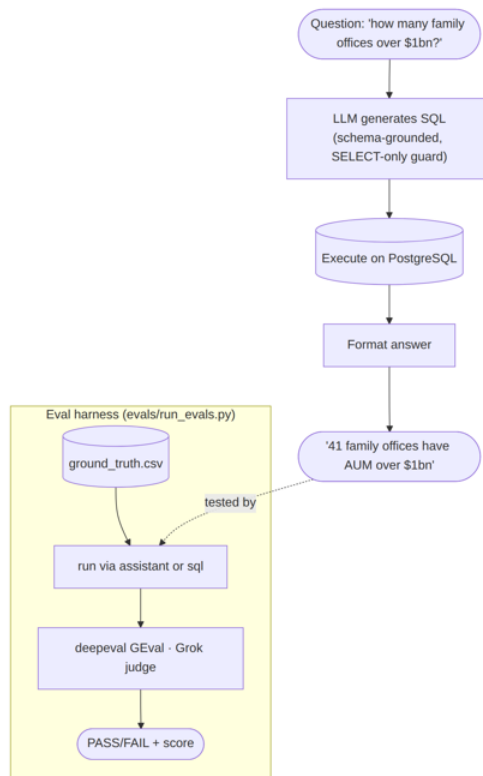

# The agents

- **profile\_agent** Ground in who the client is — AUM, mix, services, pains
- **needs\_agent** Detect gaps from a described setup → service categories
- **services\_agent** Explain the JTC services for a topic
- **recommend\_agent** Ranked cross/upsell with rationale + estimated value
- **benchmark\_agent** Aggregate industry benchmarks to frame advice
- **data\_agent** Quantitative book-wide questions via text-to-SQL

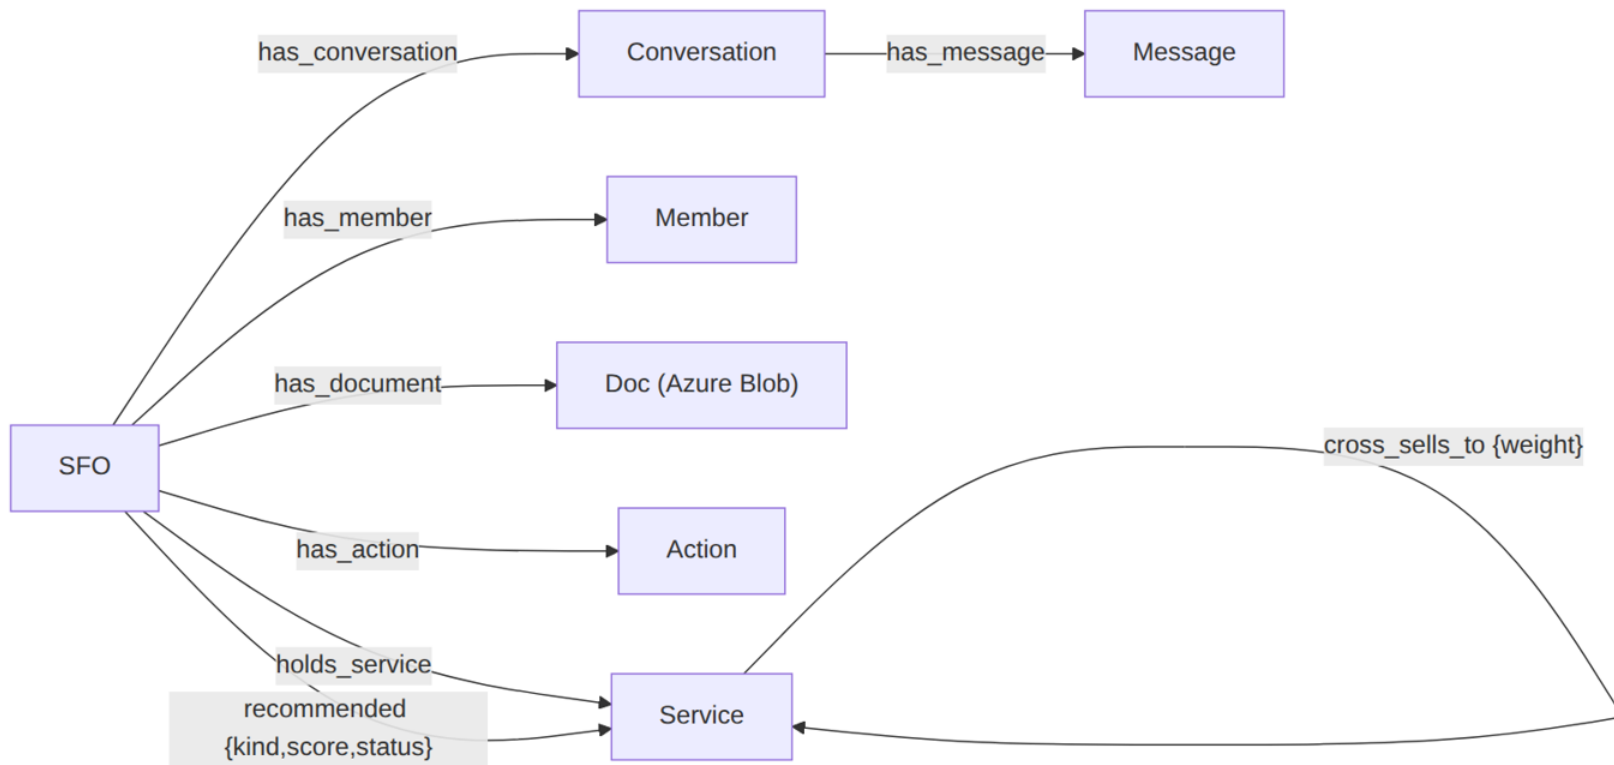

# Hybrid recommendation engine

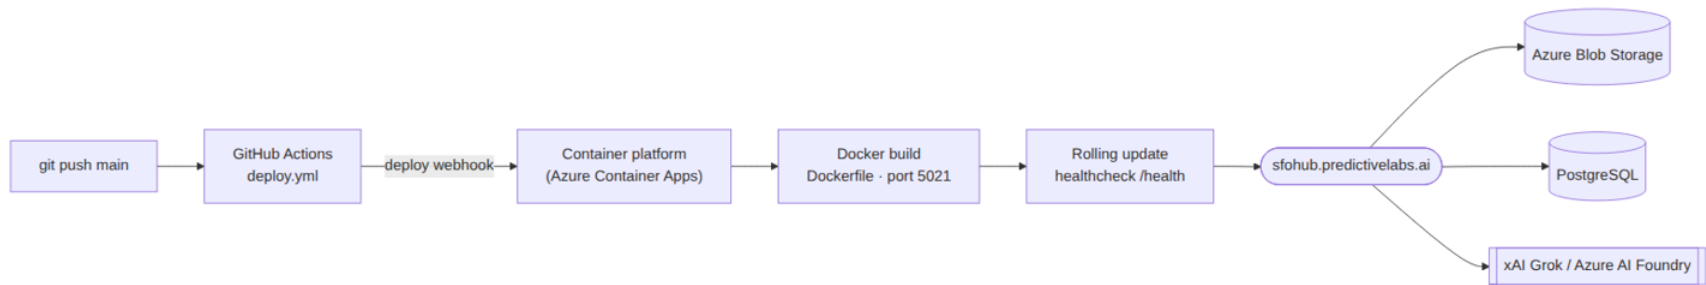

# Data agent — text-to-SQL + evals

# Data model

# Deployment & CI/CD

# Request lifecycle (end to end)
